## PROFILE

Full-stack engineer with a focus on **AWS-based cloud systems**, working across serverless architectures, data pipelines, and end-to-end application development.

Started out as a web developer, bringing thorough **backend** (PHP, Node) and **frontend** (Angular, Vue) experience alongside a strong focus on **automation**, Dockerized environments, and CI/CD workflows.

B.Sc. in Computer Science and pursued an M.Sc. focused on cloud technologies and network infrastructures.

When not busy coding, most likely outdoors biking, climbing, hiking, or enjoying good coffee.
